WORK EXPERIENCES

WEB DEVELOPER

Team Fames Sdn Bhd | September 2024 - Present

- Ensure all systems managed by Team Fames, including Wabot, KlikSini, MleadsPro, and Waform, run smoothly and without problems.
- Find and make improvements to increase the performance, efficiency, and user experience of all systems.
- Plan and add new features to the systems based on user needs and feedback from the support team.
- Check server and system logs to quickly spot and fix any issues to keep everything running reliably.

JUNIOR WEB DEVELOPER

Myaestic Sdn Bhd | May 2021 - August 2024

- Create and update websites and web applications using scripting languages, while monitoring and troubleshooting issues after launch to ensure smooth performance.
- Develop storyboards, process flows, and sitemaps to plan projects, and design wireframes and prototypes to test workflows and gather user feedback.
- Document systems like Mybaiki with technical specifications, user manuals, and workflows to support clear understanding and future development.
- Manage project files using version control tools like Git to track changes and improve collaboration within the team.

INDUSTRIAL TRAINING PROGRAM (INTERNSHIP)

Milkup Sdn Bhd | January 2020 - Jun 2020

- Design, develop, maintain, and troubleshoot websites to provide a safe, efficient, and user-friendly experience for all visitors.
- Build and manage e-commerce websites using WordPress, integrating features like voucher redemption, promo codes, discount campaigns & etc to boost customer satisfaction .
- Edit and optimize product photos and videos to improve visual appeal and enhance customer engagement.

EDUCATION

COLLEGE VOCATIONAL SEPANG 2015 - 2019

Diploma in Database and Web Application
Malaysian Skills Certification (SKM 4)

- Developed a website, "eCadangan dan Aduan Pelajar Kolej Vokasional Sepang", to streamline student suggestions and complaints for better communication with administrators.
- Built e-commerce websites using Wix, OpenCart, and WordPress as part of academic assignments, focusing on responsive and user-friendly designs.
- Gained experience in building web applications and managing databases, including creating websites that update and display data dynamically
- Created mobile apps using Android Studio and Ionic Framework to explore cross-platform development and enhance mobile accessibility.
